

LONDON STYLE PORTER

Based on a 200 year-old recipe for Porter, this beer style was created in the mid-1750's. A dark full flavoured beer but smoother and less bitter than stout. Made with softened water, Propeller London Porter is a blend of pale, roasted and chocolate malts, hopped with English and North American varieties.

London Style Porter won a Gold Medal at the 2005 Canadian Brewing Awards and is also a two-time Silver medal winner at the 2002 World Beer Championships and the 2003 All-Canadian Brewing Awards.

EXTRA SPECIAL BITTER

Rich, full-bodied English-style bitter made from a blend of two-row malts, including pale malt, crystal malt (for body and residual sweetness) and chocolate malt (for its rich flavour and colour). A last small addition of malted wheat helps deliver its pleasing head.

Hopping is done to 30 IBUs using a combination of North American Willamette and Fuggle varieties, and English Goldings. Water is softened for this brew in the manner of southern English bitters, making it very smooth and refreshing.
